

## EREasy Spray System

**A HEALTHIER AFFORDABLE  
BUILDING PRODUCT**

Americhanvre's ErEASY is an efficient hemplime spray system. The spray is made of hemp hurd, water and binder 120 comprised of Vicat cement and a hydrated lime. The 120 binder is sourced from France and in future will be produced in the US. The application system is made of 100% American-Made components. The use of the system can speed up installation time and provides consistency in the mix. Trainings are provided.

2.2 R-Value/inch
