

Forbo Bulletin Board

AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

Forbo's Bulletin Board is made of linseed oil, granulated cork, pine rosin binders on a jute back. It contains 43% pre-consumer recycled content (cork & tall oil) and is biodegradable at the end of its life. It comes in a variety of colors that coordinate with their [Marmoleum flooring products](#). It has excellent acoustic properties.

Forbo's Bulletin Board has been noted for its longevity and durability to heavy use. When first installed it can have a strong scent, however, it is not harmful as it's just the scent of linseed oil and will fade over time.
