

Lemix® Clay Panel

AVAILABLE AT THE DONGHIA
MATERIALS LIBRARY

AVAILABLE IN THE EU

LEMIX® clay building panels are a healthier alternative for any type of drywall construction. Being made of 100% natural materials, clay panels are naturally mold resistant, eliminating the need for harmful biocides. Due to being made from clay, they can regulate humidity and heat while absorbing VOCs, pollutants, and odors. They can be compostable and recyclable.

CATEGORY	MANUFACTURER
Drywall, Clay	Hart Keramik

MATERIAL COMPOSITION*

clay, potters clay, wood fiber, starch, hessian mesh (rear side only)

**as reported by the manufacturer*

AVAILABLE SIZING

49.2" x 24.6" x 1/2" or 3/4" thick
