

Vivo

Vivo is Climatex's all natural textile line, made of virgin wool and Lenzing (a fiber made from wood pulp). Climatex® textiles - offered by Jab Anstoetz KG - are produced in facilities awarded with Cradle to Cradle (C2C) Gold standard and blends can be 100% separated from each other and returned to their respective cycles - either being composted in the case of natural fibers or recycled if synthetic as in other lines. Untreated materials can be returned to the manufacturer after use to be recycled. The product is certified by OekoTex and Cradle to Cradle Silver for Material Health.

Abrasion: 40,000 Martindale

CATEGORY

Textile, Natural Fiber Blend
