

# Articulo

**A HEALTHIER AFFORDABLE BUILDING PRODUCT**

Articulo is a line of porcelain tiles that are designed to look like vein-cut travertine. This product is made in the U.S. and contains both post-consumer and pre-consumer recycled material. It is comprised of just 6 materials that are converted into benign, fully vitrified porcelain during the firing process.

Per DalTile's factory EPD, the Articulo line meets HML's criteria for low embodied carbon. The majority of these tiles are produced in Muskogee, OK making this best suited for projects in the southeastern United States.

**CATEGORY** **MANUFACTURER**  
**Tile, Porcelain Daltile**

**MATERIAL COMPOSITION\***

Kaolin clay 20-55%, Nepheline Syenite 0-50%, Talc 0-40%, Feldspar 0-15%, Mica 0-5%, Quartz 0-30%

*\*as reported by the manufacturer*

**AVAILABLE SIZING**

1x3 in, 6x18 in, 12x24 in, 18x36 in

**COLORS**

Editorial White AR06, Feature Beige AR07, Story Brown AR08, Column Grey AR09, Headline Grey AR10
