

EcoWorx Carpet Tile

 AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

 **LEC** LOW-EMBODIED CARBON MATERIAL

Patcraft's EcoWorx carpet tile is a non-PVC backed carpet tile. Per manufacturer, all EcoWorx carpet tile with nylon are Cradle to Cradle Certified® Silver. Reverse is an exception, as the manufacturer set out to obtain a Gold level certification. Using a carefully curated selection of yarn colors for the collection, the styles of Reverse were able to pass the Cradle to Cradle Product Standard's Restricted Substance List (RSL) to achieve Gold in the Material Health pillar. This HPD relates to several EcoWorx collections, including Reverse and Artefact. All pigments fall below the 1000 ppm reporting threshold for the HPD and most pigments fall below the 100 ppm threshold for Declare, hence no need for separate (HPD/Declare) certifications for the C2C Gold collection. Shaw guarantees free reclamation and recycling at the end of use.

Per Patcraft's product-specific EPD, this product meets HML's criteria for low embodied carbon.

CATEGORY	MANUFACTURER
Tufted Carpet Tile, Synthetic	Patcraft

MATERIAL COMPOSITION*

Calcium Carbonate 22-58%, Ethene-1-Octene Copolymer 5-15%, Aluminum Trihydrate (ATH) 3-8%, Hydrocarbons C6-20 2-5%, Polyethylene Terephthalate (PET) 2-5%, Vinyl Acetate/Ethylene Copolymer 2-5%, Fiberglass 1-3%, Quartz 0.5-5%, Ethylene/Hexane-1Copolymer .1-2%, Nylon 6 Polymer 0-51%, Nylon 6.6 0-50%, Modified Acrylic Binder 0-1%, Polyvinyl Alcohol 0-1%, Resin Acids/Rosin Acids, Esters with Triethylene Glycol 0-1%, Tridecyl Alcohol Ethoxylate 0-1%, Undisclosed 0-1%

**as reported by the manufacturer*

AVAILABLE SIZING

Tile sizes are dependent on collection, ranging from 12"x48" x 24"x24"

COLORS

Available in a range of colorways
