

Durabella Terrazzo

 AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

LEC LOW-EMBODIED CARBON MATERIAL

Durabella Terrazzo flooring is composed of marble aggregates and/or natural stones with a vegetable oil-based binder. This healthier alternative to epoxy flooring is Red List Free and passes VOC emissions standards for the level of Indoor Air Comfort. While the production of this product currently requires the use of isocyanates, the manufacturer avoids the more harmful toluene diisocyanate (TDI). Proper protection during installation is advisable at all times. Durabella is customizable and can be applied to interior and exterior surfaces.

Per Duracryl's EPD, this product meets HML's criteria for low embodied carbon.

CATEGORY	MANUFACTURER
Resilient, Biobased	Duracryl International

MATERIAL COMPOSITION*

Binder 50-80% with HDI Activator (2-Oxepanone, Polymer with 2-ETHYL-2-(HydroxyMethyl)-1,3-Propanediol 50%; Vegetable Oil 50%); Calcium Carbonate Filler 2.5-11.7%; Pigment 0.4-0.8% (C.I. Yellow 42 25%; Diiron Trioxide 25%; Iron Oxide 25%; Titanium Oxide 25%); Polyurethane 0.3%

**as reported by the manufacturer*

AVAILABLE SIZING

custom poured
