

# DuraSoy ONE Paint & Primer

The Ecoprocote DuraSoy ONE Paint + Primer by Eco Safety Products is a dual water-based and acrylic interior/ exterior paint and primer. The product is VOC-free, APE and NPE-free, non-toxic, and formulated by crosslinking solvent free acrylic with biobased emulsion. The bonding technology provides stain resistance for the protection of stucco, plaster, wood, drywall and concrete. DuraSoy ONE Paint + Primer has been screened to contain no PFAS or PFC's, CDPH VOC Emissions Certified, and qualifies for WELL and LEED. The product is biopreferred certified. Titanium Dioxide is being used for pigmenting, the whiter the pigment, the more titanium dioxide.

**CATEGORY**

Paint / Biobased, Soy Eco Safety Products
