

Eco-Tuff Clearcoat Finish

The Eco-Tuff Clearcoat is an NIPU (non-isocyanate) biobased polyurethane finish. It can be used to seal wood or concrete and is available in a matte, satin or gloss sheen. It avoids VOCs and PFAS. It is CDPH VOC Emissions Certified and qualifies for both WELL and LEED. Acrylic acid is being used to form the polymers. Once chemically bonded, it is not harmful in end-use. It currently still contains petrochemical derived acrylic, but this will gradually be replaced by biobased alternatives and post less harm throughout its entire life cycle.

CATEGORY	MANUFACTURER
Sealant / Surface, Biobased	Eco Safety Products

MATERIAL COMPOSITION*

Water, Acrylic Acid 3-(Trimethoxysilyl)Propyl Ester, 1,2 Benzisothiazol-3(2H)-One, Undisclosed, Starch Nitrate, Alcohols C9-11 Ethoxylated, Alcohols C16-18 Ethoxylated, Castor Oil Polymer with TDI, Triethylamine, 2-Propenoic Acid 2-Methyl-Polymer with Ethyl 2-Propenoate, Benzenesulfonic Acid Dodecyl-Branched Sodium Salt, Benzenamine N,N'-Methanetetraylbis[2,6-BIS(1-Methylethyl), Fatty Acids C16-18 and C18- Unsatd. ME Esters, Xanthan Gum, Surfactant-Specific Amines

**as reported by the manufacturer*

AVAILABLE SIZING

1 qt, 1 gal, 5 gal
