

Green Cell Foam

 AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

Made primarily from U.S. grown, non-GMO cornstarch, Green Cell Foam is a healthier and more environmentally friendly alternative to petroleum-based foams.

This material is compostable, biodegradable, and water soluble.

Its manufacture requires 70% less energy and generates 80% less greenhouse gas than traditional foams.

CATEGORY **MANUFACTURER**
Packaging, Corn **KTM Industries, Inc.**

MATERIAL COMPOSITION*

Corn Starch >90%, Water/Proprietary Additives/Processing Aids 1-10%

**as reported by the manufacturer*

AVAILABLE SIZING
