

# Homasote NovaCork Panels

Homasote NovaCork Panels are interior panels with a cork veneer over a Homasote 440 board (see also in our [Wallboard Collection](#)), made of 100% FSC Certified cellulose fiber. The product uses a nontoxic and no VOC adhesive. The boards are fire rated without the use of urea formaldehyde or asbestos additives.

The declared R-Value is 1.2 and the NRC is .20. Homasote NovaCork Panels add insulation and acoustic properties to a wall assembly, a great retrofitting option. This product contains a small amount of paraffin wax. According to the manufacturer, "It's added to the mix to make the boards slightly hydrophobic in nature."

CATEGORY	MANUFACTURER
Wall Panel, Cellulose	Homasote

MATERIAL COMPOSITION\*

Cork Veneer, Cellulose 94-98%, Paraffin Wax Emulsion 1-5%, Copper Metaborate .002%, Copper Sulfate Pentahydrate 0.01-1%

*\*as reported by the manufacturer*

AVAILABLE SIZING

4' x 8' square edged panels
