

Polar Barrier Loose Fill

Polar Barrier's Loose Fill insulation is manufactured using 100% recycled paper. Primarily intended for use in walls and attics, this insulation provides superior sound control, fire protection, and energy savings compared to fiberglass. The production of Polar Barrier Loose Fill also uses up to 10 times less embodied energy than fiberglass does, and its reliance on recycled materials diverts waste from landfills.

The Loose Fill's R-value is declared at 3.9/inch.

CATEGORY

Insulation / Fibrous, Cellulosic, Granular, Cellulose

MANUFACTURER

Insulation Manufacturing

MATERIAL COMPOSITION*

Ammonium Sulfate 0-15%, Boric Acid 0-15%, Wheat Starch 0-5%, Non-hazardous Dust Control Agent 0-1%, Cellulose Particles (percentage not disclosed)

**as reported by the manufacturer*

AVAILABLE SIZING

30.0 lbs package

COLORS

White
