

## Glazed Thin Brick

**A HEALTHIER AFFORDABLE BUILDING PRODUCT**

**AVAILABLE AT THE DONGHIA MATERIALS LIBRARY**

The raw brick that makes up Fireclay's Glazed Thin Brick is sourced through a supplier who has been in business for over 100 years and continues to source and manufacture all brick in California, within 150 miles from the Fireclay Tile factory. The brick qualifies for LEED points and is glazed by hand on-site at the Fireclay Tile factory in Aromas, CA. The bricks provide a durable, long-lasting, and easy-to-clean surface suitable for a range of projects.

\*Note that the EPD listed is for the glazing portion of the tile and not the brick itself.

<b>CATEGORY</b>	<b>MANUFACTURER</b>
<b>Masonry, Brick</b>	<b>Fireclay Tile</b>

### MATERIAL COMPOSITION\*
