

Straw Panel Assemblies

Croft designs straw-based wall, floor, and roof panels for pre-fabricated assemblies based in Maine. They aim to source straw from organic farms when possible. Plywood is sourced from Roseburg and timber is FSC-certified. Note: Roseburg plywood contains 3-5% phenol formaldehyde resin, a comparably lower content.

CATEGORY	MANUFACTURER
Wall Panel, Straw	Croft

MATERIAL COMPOSITION*

Straw, Timber, Plywood (3-5% phenol formaldehyde resin)

**as reported by the manufacturer*
