

Timber-Straw Panel

AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

AVAILABLE IN THE EU

Ecococon's Wall Panel is made of straw and timber that is condensed per a special straw pressing technique. The result is a product used for wall sheathing. In combination with the appropriate wall finishes, this wallboard panel is Passivhaus certified.

Note: The plywood binder contains a phenol-formaldehyde-based resin. The plywood is FSC Certified Chain of Custody.

CATEGORY	MANUFACTURER
Wall Panel, Straw	EcoCocon

MATERIAL COMPOSITION*

98% straw and timber

**as reported by the manufacturer*

AVAILABLE SIZING

Standard thickness 15.7"
